

Environmental, Health & Safety Policy

This Policy outlines Fenwal's commitment to continue leadership in EHS Management, consistent with local laws, our business interests, ethics and shared values. This policy applies to all Fenwal employees worldwide.

Fenwal will provide a safe and healthful workplace for our employees, contractors, visitors, communities, and others impacted by our operations. We will promote and emphasize individual responsibility for safety by all employees and at all levels of management and the organization.

We will comply with all applicable EHS regulatory requirements always looking for continuous improvement of our processes and opportunities to enhance health and safety.

We will provide effective case management systems for occupational injuries/illnesses to ensure the best recovery process, in the best time and, in a cost effective way.

We will encourage employees to report potential environmental, health and safety hazards and issues, and be involved in the implementation of solutions. We will consider all EHS requirements prior to developing any operation or product.

We are committed to the conservation of natural resources, the reduction of waste generation, and prevention of releases to the air, water or land. We will strive to be leaders in reducing, reusing and recycling, and we expect our employees to implement measures to properly dispose of any remaining wastes in a safe and environmentally sound manner.

We will strive to make environment, health, safety and loss prevention considerations integral to all Fenwal's business processes, planning and decision making. We will look for ways of adding value through the EHS programs across the organization, by preventing accidents, promoting healthy lifestyles and pursuing sustainable processes. We will take measures to ensure that our supplier's practices are consistent with our EHS goals.

We will establish and maintain appropriate controls to ensure adherence to this policy.

Ron K. Labrum

Chief Executive Officer
